President-Elect Following Con-  
gressional Situation Daily  
in Washington

## ATTITUDE VEILED

Report Delegation Will Ask  
Him To Remain Silent on  
Farm Program

ABOARD U. S. S. UTAH (VIA  
ARLINGTON, VA., RADIO STA-  
TION). Dec. 28.—President Herbert Hoover, who is due in Washington Sunday night, Jan. 6, will adhere strictly to a policy of "hands off legislation" until after his inauguration on March 4, it was learned today.

However, Mr. Hoover is following with the closest interest the legislative situation in Washington. He receives news of each day's events by radio.

The president-elect faces an extremely busy 10 days in Washington. He has under consideration a number of problems that will engage his attention when he enters the White House. He will hold numerous conferences with party leaders regarding cabinet appointments. This task comes first with inauguration plans in the background.

## Attitude Veiled

So far Mr. Hoover has not intimated his attitude regarding a special session of congress.

The president-elect expects to reach Florida about Jan. 25 and to spend some time there. Gaging.

Officers and crew of the Utah are making preparations for a New Year's eve trip aboard the warship Monday night. There will be a "watch party" to welcome the new year.

**Want Hoover To  
Keep Hands Off**

WASHINGTON, Dec. 28.—Plans are under way for the formation of a special congressional delegation to call upon President-elect Herbert Hoover upon his return here and urge him to adopt a "hands off" policy on

paper. That plants the germs on the mucous membrane.

Children should be warned against that!

It was mentioned in this column that any surplus of oranges, lemons, grapefruit, would soon become a deficit. Our wealth is increasing twenty billion a year, our population several millions a year. Only certain lands can grow citrus fruits and those lands cannot be increased. Southern California was mentioned, of course.

The British probably have heard about Senator Conants of Detroit put about \$2,000 in the original Ford company and took out \$30,000,000 in cash. Such things don't usually happen twice.

**WHAT is the use of science?" is sometimes asked.**

A geologist answered a British coal mining owner: "You have wasted fortunes boring for coal where there was none. I could have told you to stop and save your money whenever you came to a certain formation in the earth. Never dig coal below that formation. It came before the coal was formed."

The Sacramento Chamber of Commerce wants it understood that northern California also grows citrus fruits "the largest lemon grove in the world is at Maxwell, seventy-five miles north of Sacramento. Sacramento Valley oranges are first into the market for Thanksgiving and Christmas trade."

Georgia also wants it understood that the state produces most excellent Satsuma oranges, marvelously healthful for children and the best for making marmalade.

Nevertheless, the land that can grow oranges is strictly limited. That's a comfortable thought for land owners. Keep your land. There is only so much of that, of any kind.

**POLICE BAFFLED**

Second Junk Man Murder Occurs in Cleveland

CLEVELAND, Dec. 28—Detectives here were working 12-hour shifts today in attempt to solve a series of murders by robbers.

The latest victim was Herman Japkin, 60, a junk dealer, who was shot to death last night in a barn where he kept his horse.

Police believe the same two bandits who killed Max Cohen, a junk dealer, Dec. 17, when he resisted them, also killed Japkin. The pair are supposed to have held up a third junk dealer recently.

After he had been shot, Japkin staggered to a nearby house, knocked on the door and when it was opened fell face downward into the kitchen. He died before he could tell much about his assailants. He had \$30 in cash in his pockets and is believed to have resisted the bandits.

**PAGAN RITES FOR DEAD  
IN ENGLAND ARE ILLEGAL**

THE United States Census Bureau reports 710 deaths of influenza last week. There are 1,250,000 new cases in this country.

The death rate is low in proportion to the number of cases, however; but it is a dangerous and growing epidemic.

Probably one-half of the cases are caused by the habit of putting the dead to the mouth or nose, one does in molesting the fingers to the leaves of a book or even

CHICAGO, Dec. 28.—It costs \$3.50 a week more to support a horse than it does a wife, according to records on file in Judge Jacob Fisher's court today.

The judge awarded Mrs. Pauline Kosoff \$4 a week for support when he granted the separate maintenance plea after the defendant, Samuel Kosoff, testified it takes \$13.50 of his weekly earnings as a peddler to keep his horse.

His average weekly income is \$36, Kosoff testified.

**ANXIETY OVER  
KING GEORGE  
AGAIN GROWS**

Condition Unchanged and  
Ruler Is in State of Grave  
Exhaustion

LONDON, Dec. 28.—Anxiety over King George's condition, which was somewhat allayed over the Christmas holidays by the absence of ailing relatives in the winter medical buildings, again gained force this afternoon.

A doctors' bulletin at noon noted improvement in local conditions but it admitted that general conditions did not show the same progress.

The king is in a state of grave exhaustion. It is difficult to administer nourishment. New measures are being undertaken to combat weakness.

Official announcement that the king's condition was unchanged was made at the palace shortly after 4 o'clock this afternoon. Lord Hawes of Penz revisited the palace at 2:30 o'clock, remaining half an hour.

There was a long medical consultation by five doctors at Buckingham Palace in the morning.

The Prince of Wales called at the palace twice during the morning.

Princess Mary, the king's daughter, cancelled a proposed trip to Leeds.

After 10 days of optimism, the London newspapers were again in the throes of doubt and anxiety today.

Officially it was not admitted that the king had suffered more than a relapse.

## GAS RATE LOWERED BY COUNCIL ACTION

Bellefontaine Group Makes Reduction; Users Will Save \$16,000

BELLEFONTAINE, Dec. 28—Reduction in the gas rate to a \$1 million from varying each of the 2,400 customers an average of 40 cents a month, or a total of \$10,000 a year, has been accomplished by the city council on recommendation of chief engineer F. M. Basley. The old gas rate was \$1.33 per thousand with a 10 per cent reduction if the bill was paid in 30 days.

The new rate runs \$1.15 for the first 2,000 cubic feet, \$1.10 for the next 10,000 cubic feet, \$1.05 for the next 10,000 cubic feet, and \$1 for all

over 22,000 cubic feet.

The rate gives Bellefontaine the lowest combination gas and domestic light rate in the United States as the lighting rate is only six and a quarter cents per kw hour.

Council also increased the salaries of the chief clerks and foremen of the three municipal plants from \$10 to \$20 a month, a total increase payroll of \$1,500 a year.

This is the second time since Mr. Basley took charge of the city's three plants that the gas rate has been reduced. It is possible that the electric lighting rate may be reduced soon or the excess profit the plant has made this year placed in a fund to provide facilities for the rapidly increasing demand for the current and the reduction postponed two months.

The gas rate is the lowest in Ohio where the city makes its own and is linked with the natural product, and lower than any utility rate applied to any city in the country.

## ENDS COLD QUICK WAY DOCTORS NOW ADVISE

Tempting Taste! Instant Relief  
—Then Cold Just Disappears  
When Treated This Way

No longer is it necessary for colds to cause needless misery or risk of pneumonia. Doctors are now advising a method that has given quick relief—not only in extreme cases but in home use among vast numbers in Marion and vicinity.

D. H. Phillips, for example, neglect of just one cold because it was mild at first. A day later congestion started to spread rapidly he fell "ashore" and found pneumonia. On the advice of his doctor then he started using double strength doses of Ayer's Pectoral—a hospital certified medication of wild cherry, cinnamon bark and other ingredients now used by leading clinics.

He began instantly. With the first pleasant swallow he felt the cool, comforting healing warmth—from his nose passages deep down into his chest. In a few hours the "feverish" feeling was relieved; congestion began to clear up and in another day or so the doctor reports all traces

Note! Other cases reported daily—all certified by attending physician.

Just a few pleasant spoonfuls of Ayer's Pectoral now and you too will feel like a different person tomorrow. At all drugstores 90¢ or twice as much in \$1.00 hospital size.

## Do these two things to avoid "flu"

Keep your system in good condition; also protect your nose and throat

There's no need to get panicky, because the papers are full of news of an influenza epidemic. There's no use in isolating yourself because a lot of other people are sick with it. If you take certain simple precautions every day—and then don't worry—the chances are you will throw off any "flu" germs you are exposed to, and keep well.

We're not recommending that you dose yourself with a lot of medicines, either. Just observe two common-sense health rules which can be easily followed:

**Dr. David says:**

"You can't help breathing air that's laden with flu germs and other bacteria these days. But you can protect your nose and throat against them from lodging there and breeding and causing trouble."

I'm advising all my patients these days to keep Mistol on hand and use it regularly. The first thing is the morning before you go out. And again at night when you come home. Don't be afraid to use it fresh. It will do no harm. And then stop worrying. You've done all you can to safeguard yourself."

Put Mistol up your nose. There's a special dropper that comes in every package that makes it very easy to use. Just tilt your head back and drop it in your nose until you feel it

in your throat. You'll notice the pleasant, cleansing effect at once. Mistol clears your head and makes breathing easy. It has a healing, soothing effect on the membranes and relieves any irritation or inflammation. It helps dry up a running nose. Use it, too, as a gargle. Mistol is good for a sore throat or hacking cough. And those all, protects the nose and throat against germs.

"Don't wait till you begin to sneeze or your throat aches. Take my advice and get a bottle of Mistol today. Every druggist knows it."

The combination treatment of Nujol and Mistol is a double safeguard against influenza. Start this wise two-fold precaution now. Don't delay!

Nujol and Mistol are both made by the same famous laboratories, of the finest quality materials and with the greatest skill possible. Both preparations are harmless. At all druggists. Aren't they worth trying?

### IN MAIL ROBBERIES

Man Arrested in Czechoslovakia Said to Have Confessed

KRASLAV, OSLOVOSLOVIA, Dec. 28.—A man arrested by police on criminal charges was said by police to have confessed his implication in number of mail robberies and a murder in the United States.

The prisoner who described himself as Nikolai Herewehel admitted according to police he was involved in mail robberies in Ohio and North Dakota in cooperation with American criminals described as Beltrami and Macneil.

The murder is said to have been committed in connection with one of the robberies.

### 96 INDUSTRIAL DEATHS IN OHIO, RECORDS SHOW

COLUMBUS, Dec. 28.—Two more counties left their places on the industrial honor roll of those reporting no fatalities in manufacturing plants for 1928, it was learned here today from the November report of the division of safety and hygiene, Industrial Commission of Ohio. Champaign and Union counties both reported one death last month.

The number of industrial deaths over the state however showed a marked decrease from October. There were 93 deaths filed last month as compared with 109 in October. No victim, 1927 died in

**NO PRESENT DANGER OF WIDESPREAD FLU**

Not Likely To Equal Proportions of 1918; Officials Are Encouraged

WASHINGTON, Dec. 28.—An analysis of reports of the rapid spread of the influenza epidemic by public health bureau experts today indicated that there is no present danger of the disease approaching the volume of that of 1918, when a 20 million death.

Officials were greatly encouraged by the fact the situation in California, Montana and other states where the epidemic is ravaging is satisfactory, and that pneumonia is not developing as seriously as was first feared.

While the epidemic is fully as widespread as that of the war winter, the mortality rate continues comparatively low. As the disease sweeps into the east the death rate undoubtedly will increase owing to the population concentration and cold weather, but not with the severity of 1918.

Dr. Surgeon General Cummings' office it was stated that the greater number of deaths from influenza may be anticipated as the epidemic declines in number of cases. In this stage of the disease pneumonia is more likely to develop.

Although deaths have been more numerous in California and Montana in the last week, the rate is still comparatively low, indicating according to the health service that the epidemic will not become highly fatal.

**CHURCH ATTITUDE**

Birth Control, Divorce and Other Questions Up for Pastors

COLUMBUS, Dec. 28.—The attitude of the church on birth control, divorce and other questions affecting stability of the home will form a portion of the subjects to be discussed at the Ohio pastors' convention to be held here Jan. 21 to 24, it was announced today by the committee on moral welfare in the home.

Among the questions to be discussed by the牧师 will be "Is the American family disintegrating?" "Can the monogamous family withstand the assault of behaviourism, mechanism and materialism in classroom, commercial circles and the clubs of today?" "Should the church oppose the teaching of scientific birth control?" "What is the gravest danger confronting the American home today: easy marriage, easy divorce, industrial and economic conditions?" "Just how badly off are we in a post-war era?" "Should the number of divorces allowed to a given individual be limited by law?" "What is the church's most effective weapon in defense of the home?"

**13 RECKLESS DRIVERS GET JAIL SENTENCES**

COLUMBUS, Dec. 28.—Motorists of Columbus are beginning to take heed of the police drive against reckless driving, it was indicated today by the increased number of names on the police blotter of persons charged with such offenses. Municipal judges have been handing out jail and workhouse sentences to those found guilty.

Thirteen reckless drivers drew jail sentences of from one to 20 days from Judge Holmes yesterday. Every day during the past fortnight from five to a dozen reckless and drunken drivers have been receiving stiff sentences. There were only eight names registered at the police station today or those offenses.

**PLAN CAMPAIGN FOR  
SAFER AUTO TRAFFIC**

West Side Business Men To Request Regulations for West Center st.

Business men of West Center st. will appear before city council in the near future with a petition asking for more strict enforcement of traffic laws. Clifford Lower, an official of the West Side Business Men's association stated today.

Recently a petition asking for a traffic light at the intersection of Center and Center sts was placed before council.

Traffic on the recently improved and widened streets has reached a point where it is endangering the lives of children required to cross this street to get to school, Lower says.

A meeting of all business men of the West Side has been called to draft another petition requesting more effective traffic regulations. This meeting will be held within the next 10 days, according to Lower.

"We do not know who is at fault in this disregard of the speed laws, but we do intend to remedy the situation, if possible," Lower stated.

**THREE MEN DEAD**

Tall Follows Night of Lawlessness In Chicago

CHICAGO, Dec. 29.—Three men are dead today following a night of lawlessness on the South Side of Chicago.

Henry Casel, an ex-con, was shot and killed by Joseph Adler, a World war veteran, when Casel and three companions tried to hold up Adler's drug store. Casel's three companions escaped.

A few minutes before, the bandit quartet had attempted to rob the restaurant of Samuel Salvatore. When Salvatore and his friend, Peppie Regina, resisted the bandits, the latter opened fire, killing Regina and seriously wounding Salvatore.

While police were searching for the outlaws, they came upon the body of Louis Nelson, 31, a carpenter, in an alley in the rear of his home. He had been stabbed to death, apparently the victim of holding men.

**TAKE STEPS TOWARD**

**CLEANSING OF RIVERS**

COLUMBUS, Dec. 28.—First financial steps toward the cleansing of the Scioto and Olentangy rivers for the length of their courses through Columbus had been taken today by city council with the authorization of a \$1,000,000 bond sale.

It is estimated that the total project will cost upwards of \$4,000,000. The proceeds of the first bond sale will be used for the sewage disposal system.

Konjola Gave Quick And Lasting Relief From Stomach Trouble After All Else Had Failed

Mr. J. E. COX

From thousands of happy hearts, young and old alike, your words of gratitude and praise for Konjola, the new medicine that banished pain and disease when all else had failed. Imagine the joy of Mr. J. E. Cox, 732 Broadway, Washington Court House, Ohio, when he writes:

"When one medicine can end twenty years of suffering for a person at the age of 73, you know that medicine has exceptional merit, and that is exactly what Konjola has done for me. Stomach trouble was the worst of my worries, bringing on gas bloating, indigestion pains and their companion sensations. Constipation made everything a great deal worse and this constant suffering made life almost unbearable."

"One day I read of Konjola relieving neighbor, of mine, who suffered with his stomach about the same as me. Right then I made up my mind to try this medicine. What a blessing it turned out to be. It was exactly what I had always needed. All my health woes are gone and life has a brighter outlook. Even my work has become a pleasure. Indeed, I will always be glad to tell others about Konjola."

Konjola is different than any other known remedy in this section. It contains twenty-two juices extracted from natural plants, which invigorate the stomach, liver, kidneys and bowels to a more healthy action. The effect of this Konjola on the entire system brings amazing relief in cases of suffering that have been going on for years. At the same time, my work and rundown systems have been restored to a new state of health through this compound. Such a vast number of men and women in this city have told of their experience with this new medical product, until now, Konjola is the most highly endorsed medicine that is known in this section.

Konjola is sold in Marion at Stump & Sons Pharmacy and by all the best druggists throughout this section.—Adv.

staying qualities.Forty-four lives were lost this year in

the avowed intention of making India and

said for "Pussyfoot;" the magnitude of the  
job he faces never appears to discourage  
him.Let's be fair to Mussolini. He doesn't at-  
tempt to corner all the publicity. Occasion-  
ally he permits the king, to unveil a  
monument or something like that.While there have been some mornings  
bordering on, the weatherman has yet to  
give us this winter one on which a breakfast

would prove ideal.A wealthy department store owner out in  
Guy, Indiana, has been fined \$20,000 and  
sentenced to serve two years in federal prison  
for buying merchandise stolen from an in-

A few such cases and burglary and robbery  
will cease to be the common crimes they are.  
There is little incentive for such crimes when  
the criminal world is unable to dispose of its  
loot.Liquor valued at \$100,000 was seized by  
the New York police a day or two ago as it  
was being unloaded from a truck at the  
entrance of an apartment house in the Bronx.  
Mr. Whalen seems to have supplied the necessary  
spur to arouse the New York police de-  
partment from the supine state which marked  
it from almost the time Mayor Walker placed  
his former law partner at the head of the  
police department of the metropolis.A new speed record for mail airplanes was  
hitting up, a day or two ago, when the 997  
miles between Kansas City and Chicago were  
negotiated in six hours and forty-two minutes,  
an average speed of almost 150 miles  
an hour, part of the distance being made at  
a speed of three and half miles a minute.  
We Americans will have to begin writing  
mighty important letters to justify such a  
speed as that.

## Forests and Spring Water.

That there is a close relation between  
forests and our spring water supplies is very  
convincingly brought out in a report made  
this week by the forest service of the United  
States department of agriculture.In the country about Urania, Louisiana,  
the report sets out, it has been found im-  
possible to get good water from wells regard-  
less of the depth to which they are sunk  
Shallow or deep, the result has been the  
same. The main water supply of the section,  
which boasts something like thirty families,  
is what is known as "the Strickland spring."  
The region about the spring is sandy clay  
soil, good pine land, and thirty years ago was  
covered by a dense virgin forest. In the  
eight years following 1898 the region was cut  
clean of timber, with the result that, within  
a short time, the spring on which all the  
families of the neighborhood placed de-  
pendence for their water supply began to go  
dry periodically and finally proved useless as  
a drinking water supply.Five years after the last of the timber had  
been cut away—in 1910—Henry E. Hard-  
ner, of the forest service, began re-  
foresting the tract and five years after that  
the tract was covered by a fine stand of young  
trees. It was not long thereafter until the  
waters of the spring began to come back, and  
now, the report states, the spring furnishes  
more water than ever before and doesn't show  
the slightest tendency to go dry even in seasons  
of extreme drought.The value of forests as preventives of floods  
has long been recognized. It has long been  
realized that they preserve land from de-  
struction by preventing erosion. But though  
possibly we long ago should have figured it  
out, it's probable that few of us have realized  
that it is through the agency of forests that  
springs get their water supplies.The more one delves into the study of  
nature, the more greatly impressed one is  
bound to be by the wonderful plan of  
creation. \*

## France in an Unenviable Light.

The course followed by France in regard  
to her war debts is not one tending to exalt  
her in world esteem. Ten years have passed  
since the close of the World war, and she has  
as yet failed to make any arrangement for  
the liquidation of her obligations. As a  
matter of fact, she has thus far refused to  
admit that she is in any way financially  
obligated as a result of the war to any other  
power. In this respect, she has placed herself  
in the class of Russia.

Whenever the matter of meeting or ar-  
ranging for the payment of her war debts has  
been called to her attention, France has  
broken out in impassioned utterances con-  
cerning the awful price she paid in blood,  
and as much as implied that the powers as-  
sociated with her in the war are more in  
debt to her than she is to them, invariably  
closing with a recital of her poverty.

The poverty plea passed muster for a  
time, but during the last two or three years it  
has been under suspicion. American obser-  
vers have reported from time to time that  
France was enjoying a greater degree of  
prosperity than she did before the war, and  
now we have the report of a British observer  
to the same effect.

The commercial counsellor to the British  
embassy in Paris last week forwarded to his  
government his report on the "economic con-  
ditions in France in 1928" in which he re-  
veals that France not only has reached a post-  
war prosperity which makes it necessary for  
her to import 1,500,000 alien workers, but  
that the economic situation in the one time  
war-torn regions is at present actually better  
than it was in 1914 before the war. Not only  
have the visible exports of France shown a  
marked growth, this British observer points  
out, but also what he terms her "invisible trade,"  
reciting that the national development  
of "tourism" on a systematic scale now  
results in an annual "invisible trade" of  
\$300,000,000.

The British counsellor reports that the  
coal mines of the devastated areas of  
northern France, which produced 27,000,000  
tons in 1913, produced 33,000,000 in 1927,  
while the coke output has doubled in the  
ten years since the war; that the French pro-  
duction of pig iron has passed that of Great  
Britain despite the fact that the British pro-  
duction in 1913 was then four times that of  
France and that France for the first time in  
her history is producing more steel than  
Great Britain.

Like American observers, this British  
observer expresses the belief that the phe-  
nomenal growth of the export trade of France  
is due, in part, to the damage wrought by the  
World war, and that the one-time devastated  
regions economically profited as a result of  
the world conflict. This, he holds, is par-  
ticularly true in the case of the textile in-  
dustry, where the destruction of old-fash-  
ioned appliances has meant the introduction  
of the most modern machinery and advanced  
working conditions. Excellent examples of  
this may be found in such weaving centers as  
Armentières and Douai, he says.

The systematic and scientific development  
of tourist travel as a great source of wealth  
to France, the British commercial counsellor  
states, is in the hands of the national tourist  
office, which is financed by state allocations  
and by a share of the sojourn tax levied on  
visitors, and he goes on to say that, "as a  
result of state loans to the special hotel  
credit organization, which was created five  
years ago, many new hotels have been built  
in different parts of the country, while exist-  
ing buildings have been renovated and en-  
larged.

"While the visible and invisible imports  
from France have substantially increased  
since 1919," writes the commercial counsellor  
in closing his report, "the same categories of  
exports from Great Britain have substantially  
diminished. The balance of visible trade in  
favor of France which averaged £12,200,000  
in the years 1903-13, averaged £32,200,000  
for the years 1921-27. The invisible exports,  
notably in 1925 and 1926, can not have been  
much less than the same sum."

And despite such showings as this and  
those of our own nationals there are those  
who yet advocate that the entire debt owed  
to us by France be wiped off the slate:  
Thinking her poor, we voluntarily forgave  
her much that she owed us. Yet, found to be  
rich and prosperous, the pacifists, the interna-  
tionalists, the fute, million bankers, and a  
type of religionists who esteem anything  
European good and everything American bad  
would have us forgive France the remainder  
of the debt due to us.

Apropos of the party at the Hollywood  
home of Lotta Pickford which ended in a  
rough house, Mary will probably now ap-  
preciate as never before the danger any one  
in the public eye runs in having relatives.

Grateful citizens of Kansas City gave a  
\$9,000 home and a trust fund of \$23,000 as  
a Christmas present to the family of a brave  
policeman, who was slain while defending  
one of the Kansas City banks from an at-  
tack by bandits. What could be a more  
fitting manifestation of appreciation of  
bravery and what date more appropriate for  
the bestowal?

A citizen of Detroit has been placed under  
arrest for shooting up taxicabs of drivers who  
failed to stop at his signal. Too bad! It's  
getting so it's next to impossible to exercise  
a little "personal liberty."

The \$1,500,000 libel action begun by Mrs  
Frances Hall, her brother, William Stevens,  
and her cousin, Henry Carpenter, against  
William R. Hearst, following their acquittal  
of the charge of having murdered the Rev.  
Edward W. Hall and Mrs. Eleanor Mills, his  
choir singer, has been settled out of court.  
At times we have wondered whether or not  
that tabloid gave the net return to Mr. Hearst  
that he anticipated.

## New York Day by Day.

BY O. O. MINTY.

New York, Dec. 28.—Thoughts while  
strolling; Max Steer, the great criminal  
lawyer, who might be taken for a leading  
grocer in Gatesburg, Illinois. A famous toe  
dancer stumbles. And blushes furiously.  
Those dried-up old men with red honor  
ribbons in lapsels. The kind who like to do  
an old-fashioned waltz.

Bruce Barton, a Robbins, Tennessee, boy,  
who made good in the city. Angry motorists  
to fluttering pedestrian: "Make up your  
mind within the week." Women with the  
despairing look of those entertaining out-  
of-town visitors. The seedy backwashers from  
Brummen with pim tins and gray derbies.

Sign on loaded dice in a magic window:  
" Fool your friends." Yes, and probably get  
shot. A hotel featuring a Maitre de Beaute  
Hon Ah Higgin who looks like my boyish  
idea of a city slicker. And his young bride.  
The swoop and waltz of midtown pigeons.  
Gertrude Atherton.

Wonder what those burlesque ladies who  
thought it naughty to exit with a wink and a  
back kick think of naked revues? Those  
tall, mysterious women with long jade ear-  
drops, a dark Oriental make-up and t-can-be-  
walk. The whining, forced laugh of  
those who listen to a policeman's joke.

The west Forty-Second street panoramas—  
sea circuses, five-cent book shops, army and  
navy stores, cubicle ticket agencies, a dozen  
theaters to the block, furtive sidewalk specu-  
lators, and George White and his midget bow-  
tie. The din of dishes and babel of tongues.

Delivery wagons in the modernistic manner.  
Wish somebody would hand George  
Jessel the address of a good barber. On sec-  
ond thought—never mind. A "School of Edi-  
tors." I know a lot of dandy addresses for  
swell pupils. Clap hands, here comes the  
musical comedy juvenile who wears ribbon  
bows for cuff links.

Beggars who sit dejectedly on elevator  
stairs. Fly-by-night stores, with silk-shirted,  
bediamonded proprietors. Those recherche  
wonder if that's right—French cafes where  
the uniformed chef greets you. Street  
daddies, dance hall pianos, the medley from  
radio shops, burdy girdles—I want Help!

A distinct metropolitan monotype is the  
fellow who buttonholes you to relate an  
impossible, pointless story merely to drag in by the  
heels the name of some celebrity with whom  
he dined the night before. Sometimes I  
think a small town has the right attitude  
towards celebrities. Its attitude is—yeah!  
And with a distinct drawl.

There is a man who has been conducting a  
small enterprise successfully until recently.  
Business suddenly slumped and he exper-  
imented with many schemes. Three months  
ago he placed a huge sign over his doors  
which read: "Acme Operated," not exactly  
that but near enough. He decorated his stationery  
with the same announcement and sent out thousands of glowing circulars to  
former customers that his business was now  
"Acme Operated." Trade began immediately  
to pick up and today it is flourishing more  
than ever. "Acme Operated," like the little  
white panties they put on tired chicken legs,  
means nothing. The business is conducted  
exactly as it has been during all its years of  
existence. And as one who recently asked  
it somehow tickles me pink.

Dance knowably declare young Buster  
West is one of the best—if not the very best  
—of the acrobatic dancers. His dad is an old  
west vaudeville "puff-pawver" and the  
youngster came out of that field to have his  
name hung up in Broadway lights. He is  
in his early twenties, a sensitive blonde type,  
and could give a lot of far less talented per-  
formers a grand lesson in modesty.

Those dialect comedians whose conversa-  
tion explodes like a bottle of pop and are  
classified as low Dutch, die a hard profes-  
sional death. During the war they were  
strictly taboo. But they are returning to  
popularity. Perhaps the foremost exponents  
today are Louis Mann, Jack Pearl and Ray-  
mond and Caverly. Weber and Fields, of  
course, led the pack in their hey-day.

There are no such things as "harmless" dope  
addiction. Nobolds can "take it or leave it alone."  
Moderate indulgence does not exist. Everybody  
who uses the stuff becomes a victim and a slave,  
and a candidate for mental, moral and physical  
ruin. And unless all the outward signs are wrong,  
dope smuggling and dope consumption has been  
increasing at a frightful rate for years, and is now  
frightfully widespread.

A considerable percentage of the major crimes  
in this country is committed by brutalized or  
mentally upset dope victims. "A sniff of coke"  
has made many a man pull a trigger and become  
a cold-blooded murderer.

Yet, while the evil is very real and painful-  
ly obtrusive and is under the ban of universally  
hostile public, no way of effectively controlling  
it seems to have been found. Government agents  
and local police fight against distribution with an  
energy born of hatred and fear, but up to this time  
with only occasional success. They are not able to  
keep a real check upon it, because considerable  
contraband will go into a small space. It is easy to hide,  
and consequently it is easy to transport under cover.  
And the very effect of the stuff on its victim makes dependable clues difficult to obtain.

That the trouble really is leukemia is deter-  
mined by an examination of the blood. Without  
a report from the laboratory, the determination is  
only guesswork.

**A CHALLENGE ANSWERED.**

The county owes a vote of thanks to judge  
and jury in the Ranieri kidnapping case, in Cle-  
veland. The challenge of the Black Hand has been  
courageously answered. Open threats of death,  
reinforced by the assassination of an important  
witness, failed to deter these citizens from doing  
their duty.

More has been at stake than just the fate of  
the Ranieri kidnappers. If threats and violence  
had freed the defendants in this instance, then  
Chicago and other cities would have had to look  
forward to more and more frequent employment  
of such tactics in other criminal cases.

For the protection of the accused innocent,  
American law provides that no man shall be  
punished until his guilt is established beyond a  
reasonable doubt in the minds of twelve of his  
peers. But, for the protection of society, it is  
equally important that there shall be no coercion  
of the twelve. Seared juries beget immune  
criminality, immune criminality in turn begets  
mob violence, and mob violence begets chaos.

The Ranieri jury did a fine day's work for  
American civilization.—Minneapolis Journal.

## Move To Parole Marion's "O. Henry" Given Support of Former Prosecutor

Fred W. Warner Assists Efforts in Behalf of John L. Murphy, "Prison Author," Whose Sentence Has Been Commuted by Governor

John L. Murphy, bailed as "Ohio Centenary's Second O. Henry," will soon be free. Yesterday his sentence was commuted by Gov. Vic Johnson at the request of the clemency board. It remains for the board now to grant the parole.

A touching appeal to the case was presented here today when it was learned that efforts to obtain the parole of the prisoner were started several months ago by Attorney Fred W. Warner, former Marion county prosecuting attorney, who was responsible for sending Murphy to the penitentiary. Murphy was convicted in the common pleas court here in 1923 of burglarizing the J. R. Rawlings & Son store, formerly located in West Center st.

### Trapped in Store

Murphy and Johnnie Williams were caught in the act of attempting to burglarize the Rawlings store, before trapped by officers.

Murphy never lived in Marion and at the time of his arrest here was classed as a "hooligan." His home was supposed to be in Iowa, Attorney Warner says. When sent to the penitentiary from here in 1923, Murphy was about 30 years of age.

Murphy was sentenced to the penitentiary for a term of 10 to 15 years.

## 350 ENTERTAINED BY SALVATION ARMY

Sunday School Party Held in Junior High School Auditorium

More than 350 were in attendance at the Salvation Army Sunday school party last night in the auditorium of Central Junior High School. Numbers present included "Miss Snyder's Sunday School with Parsons Grey as Minister," "Assisting Uncle Joe," and "A Kentucky Watermelon Story."

E. N. Hale, boys secretary for the program, Mrs. Maude Everly and Mrs. Percy Holden were in charge of arrangements for the program, and had worked for the last five weeks in completing plans. Because of illness, many last-minute changes were made, and Captain Holden said today that the audience would undoubtedly have been larger if sickness had not prevented attendance.

Captain and Mrs. William Wrigley, of Mt. Vernon were guests, presenting several southern melodies as a special number on the program. Captain and Mrs. Robert Atkinson, of the Greenwood Lake camp, Delaware were also guests. Captain Atkinson gave several Bible readings and Mrs. Atkinson lead in prayer. Captain Wrigley sang several choruses with the concert.

Santa Claus attended the party with a lot of toys for 150 children, donated by the merchants of the city.

**GRAND JURY HEARS COOPER TESTIMONY**

Man Declares Governor-Elect's Record Is Above Reproach

COLUMBUS, Dec. 28.—Rumor upon rumor was flying about the capital today as to the actual import of the federal grand jury's action last yesterday in summoning Gov.-elect Myers Cooper to appear before it in connection with the check being made on the breweries in Cincinnati.

From some places came the declaration that Ohio politics are threatened by a taint of a house scandal. Other rumors are to the effect that it is nothing more than the usual check made upon the sales and production by the big breweries of southern Ohio by the federal government.

David E. May, United States district attorney, refused to divulge what Cooper's testimony to the grand jury was, but declared that "Governor Cooper, of course, is above reproach, but in this case, as in all cases the grand jury is hearing all persons who may have any information bearing on any case before it." Cooper was the first witness when the brewery cases were placed before the jury. He was in the jury room but a few minutes.

More than a dozen officials of the breweries appeared before the grand jury last night. It is said that more than 175 brewery officers, agents and brewmasters will be called before the case is complete.

The only official information that could be gleaned came from U. S. Attorney W. B. Bartlett who said that he believed between 40 and 50 indictments would be returned and that "the present grand jury will do the biggest job any federal grand jury sitting in Columbus has ever done."

Added zest to the case was aroused today with the arrival of Howard T. Jones, Washington, special assistant U. S. attorney general, to aid in the conducting of the probe.

## NO AWARD

Wilson Memorial Foundation decided on Eve of Banquet

NEW YORK, Dec. 28.—The annual dinner of the Woodrow Wilson Memorial Foundation will be held tonight at the Hotel Astor, but there will be no award for the most significant contribution to international peace and good will, as has been the case in other years.

The committee on awards, it was said, could not agree on any person to receive the honor, although Secretary of State Kellogg had been under consideration for his work in connection with his anti-war pact.

The honor carries with it the sum of \$25,000.

Governor-elect Franklin D. Roosevelt and Mrs. Woodrow Wilson will head the list of notables who will attend the dinner.

In the afternoon session yesterday the Rev. J. W. Montgomery, district superintendent of northern Indiana, gave a paper, "Little Things That Matter Much." The Rev. H. C. Little, who was in charge of devotions, emphasized the fact that tithing is the only sure way of financing the church, was the main point brought out in the talk given by the Rev. Dr. E. Miller of Mt. Vernon who will take up his pastorate of the Nazarene church of this city, Jan. 6. The Rev. J. J. Moore of the Indiana district sang a special song.

The song service at the evening session was led by the Rev. Moore, with the Rev. and Mrs. James Campbell of Salem Evangelical church giving two special musical numbers. Miss Luisa Bernard of Malden, Mass., also gave a special song. An intertesting and interesting evangelistic sermon was preached by Dr. H. Orton Wiley of Kansas City, Mo., editor of a church paper.

Devotionals for the morning session which opened at 10 o'clock today, were led by the Rev. Raymond Brown of Wilmore, Ky., known in Nazarene church circles as the southern evangelist. "Pastoral Paths to Progress," was the topic of a talk given by Dr. Wiley at 9:30 o'clock.

agricultural legislation in the present session, it was learned today.

The proposal is understood to be based upon a belief that no legislation can be enacted by Mr. Hoover remains silent and that he will call a special session shortly after March 4.

The prospect of the president-elect's return and his reported desire to lead off a special session apparently has not shaken militant members of the so-called "farm bloc" in their policy.

Says Session Necessary

Rep. L. J. Dickinson, Republican of Iowa, declared an extra session for both farm relief and tariff legislation is necessary to redress the Republican party's pre-election promises.

"The Republican party cannot afford to be put in a position where it can be said that our election pledges are repudiated," said Dickinson.

Speaking as a mid-western farm relief advocate, Dickinson said that the farm group has no objection to the demand among New England congressmen for industrial tariff revision.

Citizen Made

"I believe that there is widespread agreement as to the need for a general readjustment of the tariff which will provide protection where it is needed and also bring about reduction of items which lead to excess profits," he said.

Rep. Thomas Williams, Republican of Illinois, a member of the house agricultural committee, said a canvass of the midwest leaders of farm relief legislation indicated that any attempt to pass a bill in the short session would be defeated.

## SUCCESSFUL METHODS FOR COMBATING FLU AND COLDS

### Follow These Rules — Do Not Fool With a Cold — Use Tried Safe Methods

Look out for colds—even mild colds—in the head and throat.

Don't let them get down into the chest and lungs.

Don't expose yourself to damp or wet weather.

Don't go out if you are feeling sick. Influenza grippe, pneumonia or other serious sickness often comes from colds.

**THE DANGER**

Gold, "Flu" and Pneumonia Germs multiply by the millions and attack the weak and the strong alike. Watch out for colds, they weaken your resistance. The greatest danger lies in that "simple cold." Kill that cold quickly.

It is of vast importance to clean out the entire intestinal tract, upper and lower bowels. Keep the kidneys well flushed and freshen and strengthen the blood.

### ANew Easy Way To Kill Mice

NO CLUMSY traps—No messy baits—No fuss or bother! Just scatter a few grains of ZELIO WHEAT where mice tracks are seen and the pests will soon disappear.

YOU WILL marvel at its results.

### Meditations of a Married Woman

BY HELEN ROWLAND

Love—and Other Trifles

WHEN a woman is not "getting over" a love affair she is usually

getting into one; but a man is so am-

bazingly good looking that he can do all the

confusing that he wants to do.

I'd listen attentively when she told one of her

problems—just as attentively as I ex-

pect her to listen to mine—and I'd

talk over her business difficulties as

seriously as if I were conversing with

a man.

If my wife chose to keep on work-

ing after marriage, I'd accept the

fact gracefully. I wouldn't consider

myself disgraced and go around with

an chip on my shoulder whenever she

mentioned her job. I'd realize that

wife today no longer fills a

woman's life completely, any more

than it does a man's, and I wouldn't

begrudge her the right to express her-

self outside the home.

I wouldn't be jealous if she made a

success; I wouldn't say, "I told you

so," if she failed. I'd forget the out-

door theory of the inequality of the

sexes, and I'd treat her as a human

being instead of "only a woman."

Experience Has Taught

The experience of the 1919 influenza

showed that one of the best and sim-  
plest treatments was to take a steaming

hot cupful of Bulgarian Herb Tea.

Why take any chances, why not be

prepared? Light off your cold or

"influenza."

The right thing to do now is to go

to your druggist, get a box of Bulga-

rian Herb Tea. Kill off your cold.

Take it steaming hot twice a week.

It will beat out the chilled blood, en-

crease the circulation and aid the

bowels and intestines of poisons and

germs. Every family will find Bulga-

rian Herb Tea (purely vegetable), a

real blessing to have on hand in this

time of need.

See your druggist at once. Your

health—perhaps your very life—may

depend upon taking this simple pre-  
caution!—Adr.

# Daphne

An Unusual Romance of Love and Sacrifice

BY HAZEL LIVINGSTON

THEY went to Mr. Harris' office in San Jose. Daphne and Crystal and her mother, Mr. Turner, the neighbor, drove them in to town in his rumshack livery and Crystal complained bitterly because there wasn't any top and the sun would beat her new blue hat.

"You ought to be wearing black now!" Adelina retorted. "I'd like to know how it looks, the two of you, going to collect my dead husband's money, and not a stitch of mourning."

Daphne wedged in the back seat between them, flushed guiltily, but didn't answer. She knew what the neighbors had said about her tan coat at the funeral, but she wasn't really mourning for her father, who was almost a stranger in spite of the years they had lived under the same roof, and she wasn't going to be hypocrite.

But Crystal was angry. "I'm sure you've got on enough crepe for the whole family. You look a little more inconsolable if you'd wife off some of that paint. Good Lord, how I hate to see an old woman all made up. I hope when I'm your age I'll have enough sense to take to bonnets, and not try to look young!"

"Please come home!" Adelina begged.

"Yes, Ma—ah blubbering!"

"The best years of my life!" Adelina sobbed, not budging an inch.

"And then to think it's come to this—a pauper—without a cent!"

"Come, Mama!"

"Please, Mrs. Haines?"

Between them they got her home, and boosted her upstairs to bed, where she sat, propped with pillows, crying into the hot tea Daphne brought her.

"I declare I don't know what your father did with his money," Daphne said.

"He never spent much on me!" and she was off again, grinding her teeth, lying back exhausted, spent with weeping.

But it wasn't until the next day when Daphne was packing the old straw suitcase, that Adelina really realized the gravity of what had happened.

"That's right—leave me," she complained. "Crystal will be next. The two of you—like rats leaving a sinking ship!"

"But I have to go! I have to get back to work," Daphne explained guiltily. She was truly sorry for Adelina, with her red nose, and her red swollen eyes. "If I don't go, I'll lose my job. I'm planning to get the 2 o'clock bus."

"Yes, leave before the bank puts us out on the street!" Adelina taunted.

"Oh, Ma, shut up!" Crystal groaned, huffing her pretty plump nostrils. "Did you ever use this pistol, Daphne? I like it better than liquid. You know, I never used to think much about my hands, but I have a friend—an artist—who says they're the most beautiful!"

"They ought to be, you never do any work!"

"Mama, will you shut up? Oh, won't I be glad when I get back to my own apartment? Even if I am left high and dry without a cent, I'll starve in peace, away from Ma's bellowing."

A single shriek from Adelina. Then she shut her eyes, and lay motionless on her pillows.

"Has she fainted?" Daphne whispered. "Crystal, I believe she has, look! She—"

"Fainted nothing! Just pulling her old tricks. Well, you can just come right out of it, Ma. I'm not your old idiot of a husband. I can go right on fainted, for all of me. And if you think you're going to work me into letting you come live with me, you are sorely mistaken because it's the one thing I won't put up with. If you take my advice you'll lease a nice rooming house, and do a little work for a change. I'll do you good!"

Adelina opened her eyes and sat bolt upright. "Rooming house! You'll like your mother slaving to send you money!"

"I don't want your money. Keep it. I'll look out for myself. I've got plans. I've been doing some thinking the last couple of days. I know exactly what I'm going to do!" Crystal's eyes were bright, she patted her yellow curls coquettishly as she spoke.

"Humph!" Daphne thought miserably. "She's going to marry Ralph!" The suitcase was ready. She slipped into the tan coat, pulled her little hat close over her eyes. "It's almost time—I think it's better to go—I'll miss my bus!"

"Yes, go along, don't mind me," Adelina sneered. "I wore my fingers to the bone for your old father, it's only right you should leave me penniless, and alone!" She wouldn't say goodbye.

At the street car Daphne hesitated. "I couldn't take her to my boarding house . . . isn't you really going to

hurt me?"

PERFECT LINES

The woman of fashion is very fastidious about the selection of her lines, for she realizes they are a perfect foundation for the outer garment. With interest centered on tender hips this season, bloomers have taken to hip yokes. Styles No. 2629 shapes the yoke with dip at front, with legs gathered into kneecaps. They close at side. Well-fitting vestee, built up on shoulders, with deep round neck, completes a comfortable outfit to wear beneath the silk crepe, woolen or velvet dress. They are best made of crepe de chine in flesh, peach, tulle green or orchid shade. Crepe satin, nimon, georgette crepe, flat silk crepe, chiffon, batiste, rayon crepe and voile also appropriate. It is designed in sizes 16, 18, years, 36, 38, 40 and 42 inches bust. The miniature diagrams will give you an idea of the simplicity of pattern, with vestee in two parts, merely to be seamed at sides and shoulders. The bloomers are easily put together, following notches for same. Pattern price 15 cents in stamps or coin (coin preferred). Our patterns are made by the leading Fashion Designers of New York and guaranteed to fit perfectly.

**COUPON**

## Jubilee's Pardner

A Story of Humorous Boyhood Adventure

By JUDD MORTIMER LEWIS

ME and Jubilee got up as soon as we woke up this morning, because I wanted to let him down by the reigns in his teeth and get out and see if my father was up and panting, and he was. He had got one side of the car done and it was whining so that I could see my face in it like in a looking-glass, and when I bad watered him a while I told I guessed I would go and empty the ashes, and be said to not empty them this morning, because some of them might blow in through the cracks and stick to the wet paint. So that was all right with me. When I had got my milking done and went in the house to feed my father I was in there washing his hands and he told me not to open the garage door on any account. The garage used to be our buggy shed, but the buggy has been pulled out in the yard, which makes a garage of the shed. Then I fed my face and swiped a couple of pancakes with a piece of bacon between them for Jubilee and went out to the barn.

The bunch was all there and were up, where we keep the boy, turning flip-flops and handspins, and so I went up there with them, and if a fella is in a closed place and turns enough handspins and flips he will be even warm on a cold day. We went down to the hill, and Menly and Spider were there and they have not got any May or any winter; all the things they ever get for Christmas are useful things. I would hate to be them and not have anything in the world but useful things. I bet he will try to marry some useful woman and she will try to marry a useful man. When I marry I am going to marry someone beautiful because no one that is really beautiful is useless. If a fella can't do anything, they can't act, and look at her. I told Yvonne, and she said that was the way she felt about me too. My father worked overtime, and

MT. GILEAD, KWANIS CLUB WILL HOLD ANNUAL MEETING

MT. GILEAD, DEC. 25.—At the regular meeting of the Kiwanis club yesterday in the Lottala Inn it was announced that the annual report of the various committees would be given at the next meeting to be held at the Inn next Thursday. Dr. W. B. Holmlund will assume the position of president of the club at this meeting, it being the first in the new year. The reports of the committees cover the various lines of activity in which the club was engaged during the past year.

Cards of appreciation of the Christmas baskets were read to the club yesterday. The committee distributed baskets to about 25 families on Christmas day and many of them responded with thanks.

**RAID BREWERY**

All Believed from Canada Found Made in Chicago

CHICAGO, Dec. 25.—There was a shortage of "Carling's Canadian ale" in Chicago today following a raid by prohibition agents on a brewery on North Clark st.

Known familiarly as "Black Label," the ale was Chicago speakeasy's biggest seller. Purchasers believed it came from Canada. The label flavor and "kick" were very convincing.

The raid noted the second largest supply of contraband beverages seized in Chicago since the advent of prohibition. The raiders smashed crates containing 12,000 gallons of beer ready to be "spiked" into "Canadian" ale.

Seven men, at work in the place, heard the raiders coming and escaped.

## CANDY BY THE TON

CANDY for the sweet. If there is anything in that old saying then Marion must be one of the sweetest towns in the country. A survey of merchants today revealed the fact that nearly two tons of candy has been sold in and around the city during the last eight days. Of course, this isn't an every eight day occurrence, but it does set, mer-

chants believe, a record for the Christmas trade.

## HE SIGNED UP

It is extremely interesting to watch one of those "high-pressure" salesman inveigle a poor innocent person into signing his name to something he doesn't want, and would better off if he didn't have. Such an incident happened last week in one of Marion's downtown restaurants.

The proprietor had just ordered sufficient coffee the week before to last for quite a while, and he was getting many compliments on the finished product. Why did that large, imposing man have to come along, and upset the whole plan when it was working so nicely?

He started in his campaign by telling about himself and then brought up the subject of coffee.

He was politely told that there was no need of coffee in that shop, and that their name for good coffee was already established. Then the salesman started. He hauled his arms up to the sky, until the proprietor felt so ashamed for having ever bought any other brand that he turned red. The salesman held the door. He didn't knock any other brand, but he praised his own hunting and passed over the rest with such a cool indifference that one would think it was an insult to buy any other kind.

Anyhow, the man signed his name, and he has some new coffee coming in two weeks.

## ISSUES WARNING

A WARNING is issued by Fire Chief T. J. McFarland to the member of the household who finds it his or her duty to take care of the furnace.

"Do not put your ashes in a cardboard box or a basket," says the Chief. "It's one of the surest ways to start a fire in your basement. The ashes may smolder for hours and then suddenly break out into flames and cause serious damage."

The warning follows a fire which occurred in an uptown store several days ago, resulting in damage estimated at \$500. The blaze is said to have been caused by ashes being placed in a cardboard container.

Who would discuss synthetic foods where the soil produces more natural ones than the world can eat?

## After Christmas

NOW THAT the Christmas shopping is over and nearly everybody is fairly well dressed up, comes the thought of preserving ourselves and seeking the best things to eat, in order that we may build up the essential resistance, especially during this epidemic called Flu. It is a fact that after the attack of the flu germ, the victim is left weak and without an appetite. Here, where your first thought should be, TENDER'S CANDYLAND, get one of those delectable sandwiches or double decks, that delectable chili con carne, and that delicious HOT CHOCOLATE. They're sure to bring your appetite back.

## Guns? Auditor Landes Has Marion's Prize Collection

HOBBIES? Sure, everyone has 'em.

Some are given on golf, others are slaves to the split bamboo and lime. Again we have the well-known tobacco bugs who reduce us to the Nth degree of boredom with their stories of statistics and far-away stations.

Once in a while inquiries are heard from the stamp collector or the man who is eternally looking for the date of the 1785 date or the date with the letter "D" inscribed under the serial. But who has ever heard of a gun collecting gun? Just because he'll

then, I've to handle and clean them.

Marion has such a man in the person of J. L. Landes, city auditor. His collection of firearms, most likely, surpasses anything in the county for variety and age.

A trip to his office in the city building will reveal guns of every size,

shape and description, reclining in corners, on top of and in the safe.

The firearms range from the tiny .22 calibre revolver to the high powered Remington rifle used for big game in the northern wild.

Then, too, his home is a veritable museum. There are guns hanging on

the wall, in the corners, in clothes closets and in desk drawers. Handled the guns there are old powder horns, shot pouches and ramrods, each a part of some weapon he has collected at some time or the other during his ramble.

Many are the stories Landes has to relate concerning each and every gun in his collection. Some date back to the pioneer days when it was necessary to carry a gun to arrive at your destination safely.

Latest Addition

The newest addition to the collection came last week with the purchase of repeating shot gun with all the latest attachments.

Termination proved too strong over the holidays and for the first time in several years Landes journeyed to a trap-shoot in a nearby town and sur-

# Claims Eradication of Tuberculosis Would Add to Average Length of Life

Dr. Harold D. Larsen of University of Wisconsin Tells Scientists Disease Causes 129,000 Deaths Every Year; Economic Loss Is Cited

NEW YORK, Dec. 28.—Scientists than 129,000 deaths every year in the United States and that if the congress ever held in this country were told today by Dr. Harold Larsen of the University of Wisconsin that tuberculosis causes more than two years. That is, the life expectancy of the average person

would be raised from 55 years to 57 years.

Dr. Larsen was one of scores of speakers at various meetings being held simultaneously at the eighty-third convention of the American Association for the Advancement of Science. About 8000 learned men and women are attending the sessions which will continue until Jan. 2. Among those present are the country's foremost authorities on medicine, psychology, geology, geography, physics, sociology, education, engineering, agriculture, zoology, botany and other branches of science.

## Cities Economic Loss

"The effect of tuberculosis on the life-expectancy, or average future-life-time, is of supreme importance," said Dr. Larsen. "The expectation of life at birth among white males for instance, would be increased from 55.856 years to 61.817 years if tuberculosis were completely eradicated. The 1.961 years are lost between the ages 20 and 70, the important wealth-

producing ages in man's life."

"Lives destroyed annually by tuberculosis represent a tremendous economic loss to the United States. Estimating the monetary loss I assumed conservatively that the wealth-producing capacity of males from the age of 20 to 70 was \$300. The annual loss from death due to tuberculosis on this basis is at least 173 million dollars."

## No Gulf?

Prof. Charles Schubert of Yale made the rather startling statement in another address that millions of years ago there was no Gulf of Mexico. He was discussing the geological history of the Antillean region.

"There was no Gulf of Mexico 100 million years ago," Professor Schubert declared. "This deep-water basin came with the cretaceous when the gulf was at least three times as large as it is now. Then the area of the Gulf of Mexico, northern Central America, most of the greater Antilles, all of eastern Mexico and all of the gulf states from Texas north to Illinois and east to Florida, was submerged by this greater gulf of marine waters. This condition endured for some tens of millions of years, and then in innumerable times began to elevating movements that have continued intermittently to the present, bringing on the geography as we know it."

The savants were greatly interested today by the announcement of Prof. John J. Abel and Dr. H. Jensen of Johns Hopkins university that they had made a discovery which may prolong human life. They announced they had isolated the hormone which makes insulin operative and which may lead to the scientific production of insulin for use in treatment of diabetes.

post the service is in charge of George F. Geran, service officer of Baird McGinnis Post.

The time limit for filing applications for adjusted compensation has been extended until Jan. 1, 1929, a bulletin received by the legion post announced. The bulletin explains that dependents of deceased veterans who had not applied for federal adjusted compensation are entitled to benefits. Where there is no widow or children, a member is entitled to the benefits if unmarried or over 69 years of age. A father, if dependent or over 60 years of age and there is no widow or children, is entitled to less benefits.

Another feature is the announcement that a war veteran may now name as beneficiary of his insurance policy any firm corporation or legal entity he holds or as a trustee. The government will make payment to the beneficiary acting as trustee without evidence of a trust instrument.

## ELIMINATION PLAN ADOPTED BY NAVY

Local Officer Notified of New Training System for Air Service

Announcement of plans for operation of an elimination course at naval air stations for the purpose of improving the quality of students entering the aviation pilots' school at Pensacola, Fla., was received today by Chief Purser Captain John B. Shanks, local Navy recruiting officer. The pilots' school is open to recruits, it is announced.

In outlining details of the new plan, Captain Shanks stated today that full information regarding pilots' training school and other trade schools of the Navy may be obtained at the Navy recruiting station in the American Legion Dugout, South High St.

The Bureau of Navigation has decided to establish an elimination course at the Naval Air stations,

Hampton Roads, and San Diego, until further orders. Students for these elimination courses will be recruits from the training stations.

By successfully completing these elimination courses, the pilots' training school offers exceptional advantages for advancement. Applicants must possess a working knowledge of arithmetic, English and composition and preliminary examinations are given to determine if the applicant possesses knowledge of these subjects.

The elimination course provides for a course at the air station at Tampa,

Hampton Roads or San Diego of 10 hours followed by 2½ weeks in the general utility course, aviation mechanics school, Great Lakes, Ill. Upon completion of this course men are transferred to the U. S. S. Lexington or Saratoga for six months to increase their experience and training in serving aviation, then transferred for final training to the pilot training school, Pensacola, Fla.

Full information regarding pilots' training school and other trade schools of the Navy can be had from the Navy Recruiting station, American Legion Dugout.

## DEFENDANTS SIGN BOND FOR ROBBER

Nine Men and Three Women Decide Verdict in Common Pleas Court

### HAND MISSING

Bondsmen Enter Case While Trial Is BeingAppealed to Higher Court

MARYSVILLE, Dec. 28.—The State of Ohio was awarded the verdict in the case by the state to collect a \$25,000 bond forfeited by George Rinsel, H. N. Oberlander in the case of Weller Hand, who was arrested, tried, convicted and sentenced to the state prison for participation in the hold up and robbery of the Galion Commercial Savings Bank, June 28, 1927, the bond for his release having been signed by the defendants.

The action was heard in common pleas court here yesterday before a jury of nine men and three women, who awarded a verdict of \$25,750 to the plaintiff.

The defendants signed Hand's bond while his case was being appealed to higher courts. He was denied a new trial by the supreme court, when ordered to court, he was not to be found has been heard from since. The action by the state was started when the bondsmen failed to pay the bond.

The jury who heard the case were Mrs. C. L. Roger, Mrs. R. O. Petrucci, Golda Hughes, H. J. Slapp, Phil Schuler, Harry Ulmer, Edward Schwemeyer, Charlie Kessler, John Hohly, Joseph Hopfinger, John Schimpf and Fred Ziebold.

E. J. Myers represented the state, in the absence of Prosecutor L. H. Kreiter, who is ill with "flu" and C. F. Schuber and Alfred S. Lenthol, were the attorneys for the defendants.

## Basketball Games Feature Holiday Festivities at Galion and Marysville

Lambs Open Season with Heldelberg University Cagers in Tilt on Home Floor; Marysville Defeats Columbus Team in Slow Game

GALION, Dec. 28.—The Galion Lambs, local independent basketball team, opened their season last night at the armory with the victory of Heldelberg college opposing. The local team is this year playing under the name made famous throughout the state a number of years ago when a squad of other Galion stars made extensive basketball tournaments many of the country's finest teams.

MARYSVILLE, Dec. 28.—The Marysville high school boys' basketball team defeated Columbus West by a score of 24 to 15 in the game played on the armory floor here last night. Although it was one of the big games of the season's schedule there was nothing to mark the event outstanding and play was slow throughout.

The girls high school team defeated the alumnae quintet to a score of 15 to 8 in a preliminary game.

The boys team journeyed to Lancaster tonight where they will meet the St. Mary's parochial team and the girls will play Watkins High at home. The summaries:

## HARDIN COUNTY CONTRACTOR DIES

Paralysis Fatal to L. D. Craiglow, 71; Former Kenton Man Succumbs

KENTON, Dec. 28—Paralysis with which he has stricken Sunday at his late home in Forest, caused the death Thursday of Leo D. Craiglow, 71, prominent Hardin county contractor.

The deceased was born in northern Hardin county and for many years had engaged as a contractor and carpenter. Three sons, two daughters, three sisters and a brother, W. W. Craiglow, of Marion, survive.

Funeral services will be conducted Saturday afternoon from the late home with interment in Houston cemetery.

News was received here today of the death of John L. Forest, 61, former prominent official of the Ohio Central Glass company, which operated at his late home in Van Wert following a long illness with heart trouble. The deceased lived in Keulen for more than 12 years coming here from Toledo, and just recently moved to Van Wert.

The funeral services will be held Sunday at the Van Wert home with in charge of the Toledo Cemetery assisted by the Kenton Commandery Knights Templar. Surviving are the widow, a daughter and one son.

The grand jury venire for the January session of that body consists of seven women and eight men. They are: Abe Schleifer, Henry Stiger, Mrs. Wesley Head, Mrs. Walter Hall, Mrs. Eric Pfleiderer, W. R. Scarber and Mrs. Robert O'Donnell, of Marysville; Mrs. Louis Miller and W. A. Frank, of Gallon; Milton Shupp and G. A. **CONDUCT RITES**

M. E. Pastor officiates at Funeral for Bryan Corfman.

KENTON, Dec. 28—Funeral services for Bryan Corfman, 62, Buck Township farmer who was suddenly stricken and died while working in a field near his home, were held today at the First M. E. church in charge of the Rev. W. H. Harford.

The deceased was found by Mrs. Corfman when she went in search of her husband after he had failed to respond to calls for the evening meal. Death was due to heart attack.

Mr. Corfman at the time he left for the field was apparently in the best of health. He was found beside a shock of corn he had tried to lift onto the wagon. The team was standing nearby.

The deceased was born in Wyandot county and had lived on a farm south of him for six years. Beside the widow, two sons, two brothers and one sister, Mrs. Laura Spangler of Novelia, survive. Frank Corfman, of Upper Sandusky, is a brother.

The wedding of Fred (Grimm) and Elizabeth (Baker) Tate took place at the Grimm residence in Upper Sandusky with the Rev. C. W. Walker officiating.

Philip and Agnes Bowman-Gummel, Mary Gummel, Mrs. Mary Shaffer-Gummel and Frank Shaffer were present for the ceremony.

# HARDING DROPS GAME TO ALUMNI

## CRAM LEADING GUN IN VICTORY

Varsity Cagers Outgeneraled as Former Stars Chalk Up 25 to 17 Win on Star Auditorium Court; Score Tied in Third Quarter of Fray

BY KARL R. McELROY  
Sports Editor, The Star

**W**ITH their checks swelled out to such an extent that vest buttons are flying hither and yon, today the Red and Black eggs are pulling the old "I told you so" and Harding high school cagers are bemoaning the loss of their first basketball game. To make matters all the worse for the Red and Black, it was the Alumni quited that pulled through with a 25 to 17 victory over the varsity last night.

With a victory over Columbus West under his belt, Harding entered the contest feeling plenty cocked and ready in no uncertain terms expressed his convictions on the outcome of the game. However, the Red and Black found too much opposition in the Alumni aggregation. The contest will go down in Harding sport history as one of the greatest Varsity-Alumni clashes played on the local floor in years.

### Harding Outgeneraled

INDIVIDUAL stars cannot win a basketball game. So was the case last night in Star auditorium. Harding stacked up against a team that outgeneraled the regulars all the time. Play after play the Alumni broke through the defense that two weeks ago held Columbus West to two lone baskets. Harding's efforts to weaken the visitors in the second half with fast plays was wiped in the bid and the Alumni came through with colors flying.

Bud Cram, one of Compton's mainstays last year, was the main cog in the defeat of the regulars. He scored 15 points from six baskets and three fouls. Cram had his "on" night despite all efforts of the Red and Black guards to break up his shots.

Scoring honors for this year's squad was well divided with McAninch on top with five points. Vic Gillis and Walker each scored four points.

### Seconds Start Fray

THE second stringers playing the first quarter showed better defensive tactics than did the regulars in the last three frames. In the final quarter the score was 8 to 2 with the Alumni out in front.

Evans scored the first basket after four minutes of playing in the opening period and later followed with a free throw. With 20 seconds to play Merkle scored for the varsity. Both teams passed up many chances to score from free throws.

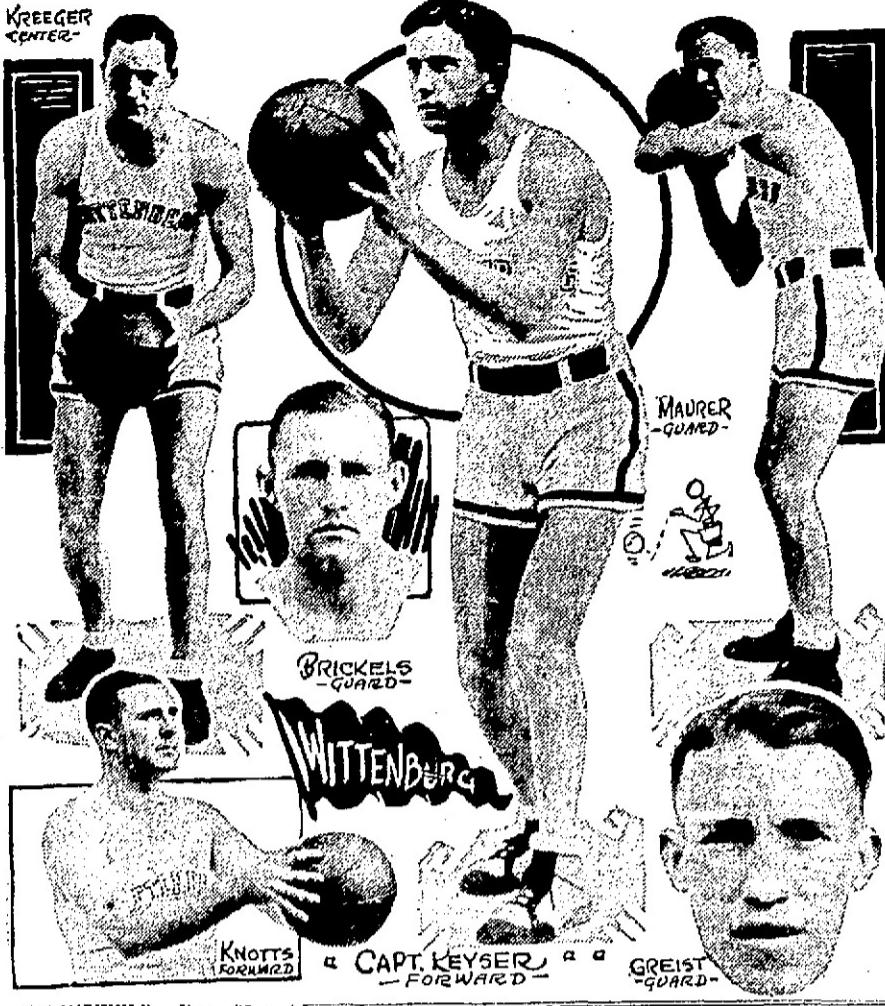

In the second frame the regulars were sent into the game with yell

### WITTENBERG QUINTET GOING STRONG

**SPRINGFIELD**, Dec. 28.—With victories over Ashland, Bowling Green and Bluffton, the basketball team of Wittenberg College here begins to show promise of a good year with five lettermen back, and a hustling center from the sophomore ranks.

Wittenberg opens the home season, Jan. 1, against Ohio Northern here, and the Buckeye season against Cincinnati here, Jan. 5.

Ed Kreger of Toledo, is tall enough to dispute the spot with most centers, and showed in the three games an ability to shoot from many angles.

Captain Joe Keyser is twice all-Ohio, and last year was only unanimous choice for forward and captain of the mythical team in the Buckeyes. Other letter men are John Brichels of Newark, Homer Knotts of Westerville, Howard Maurer of Dover, and Cecil Grelf of Lawrenceville.

### DELANEY-SLATTERY FIGHT ARRANGEMENTS COMPLETE

**N**EW YORK, Dec. 28.—Tom McCarrill, Madison Square Garden matchmaker, announces he has completed negotiations for the Feb. 1 bout between Jack Delaney, former light heavyweight champion, and Jimmy Slattery, of Buffalo.

McCarrill also stated he had received Jack Sharkey's signed contract for his Jan. 25 match with K. O. Christner, of Akron, Ohio.

### DAYTON FIGHTER SLATED TO SHOW WARES IN CHI

**C**HIICAGO, Dec. 28.—The qualifications of two young heavyweights will be on parade at the Coliseum tonight when Joe Sekrya of Dayton, Ohio, and Bobby Brown of Cuba, swap punches in a scheduled 10-round bout. Sekrya, hailed by critics as one of the most promising of the new crop of heavyweights, holds decisions over Hendrick, who battered Tuffy Grifiths, and "K. O." Christner, conqueror of Knute Hansen. Brown, a terrific puncher, has a bobbing and weaving style and is hard to hit.

### LAST NIGHT'S FIGHTS

**A**T TRENTON, N. J.—Dave Shude, California middleweight, knocked out Ray Still, Arizona boxer (S).

**A**T NEW YORK—Pal Silvers won decision over Georgia Lericne (10).

Ossie Bobbin, Detroit, won from Tony Esposito, Brooklyn, on technical knockout (3).

Roxie Allen, Camden, N. J., won from Harry Wallach, Brooklyn, on foul (3).

Spikes Webb, Orlando, Fla., knocked out Ray Burns, Brooklyn heavyweight (1).

### BARRATT WEDS

**C**OLUMBUS, Dec. 28.—The marriage of Fred Wilson Barratt, Ohio State football center, and Miss Martha Kirk of Lansing, Mich., was announced today by Columbus friends of the well-known gridiron star. The ceremony took place at Lansing, in the Church of the Resurrection.

### WORKOUTS ARE CUT BY COACH OF BEARS

Price Decides California Team in Good Shape for Tuesday's Battle

**P**ASADENA, CAL., Dec. 28—"Nibs" Price, the little Napoleon determined to clinch supremacy for the western football empire, today declared himself so satisfied with the way his California Bears are shaping up for the New Year's day tussle with Georgia Tech that heretofore his charges will have only one workout a day until game time.

After sending the boys through six hours of drill in the Rose Bowl, Price said the squad would have only one scrummage, and that a three-hour session.

"They're coming along in pretty good shape," declared Price, "condition will tell the story next Tuesday, and I won't know until then just how good they are. When you don't even practice for a month it's pretty hard to get an accurate line on the boys."

**F**OUR CONTESTS ON LOCAL SPORT CARD

Industrial League Games, Irish-Aquinas Tilt in Limelight

**I**n the auditorium and the lower Y. M. C. A. gym will be the scene of four basketball engagements scheduled for local sport circles tonight.

Six tennis of the Industrial league will see action on the Star floor, the first slated to get under way at 7:15 o'clock. Outstanding in these games will be the clash between G. H. & M. Kappas and the Osgood fives. This battle will sit the first place race down to a team.

Other Industrial games carded are: College-Mallard vs. Steam Shovel, and Bohannon Excavator vs. Power-Hookers.

At the X. M. C. A. St. Mary's fighting Irish will take on real opposition in the Columbus Aquilas quintet. This contest will start at 8:15 and is preceded by a preliminary.

### FIGHT WINNER MAY BE CHAMP

Walsh Says Either Hudkins or De Vos Will Succeed Mickey Walker as Middleweight Champion; Title Holder Has Never Defeated Either Principal

should have been confused somewhere out of harm's way. Univer. Walker knocked out Emmanuel. But not as a middleweight.

Anyhow, this part tonight would do well in any championship fight and, unless Walker can be thwarted out of incapacity, it might be that the winner ultimately will succeed to the title. Hudkins has made some good fights and some bad ones of late and possibly he is not the man he was. But he suffices quite nicely, what with his strength, his aggressiveness, and his undoubted heart. De Vos, one of those foreigners who developed late in their careers, has knocked off George Courtney, Phil Kaplan and, in fact, all middleweight opposition with the exception of Hudkins. It isn't surprising that the Garden has been sold out for weeks, since the postponement enforced by De Vos' illness early in the month.

Hearing both sides of the question won't alter my heretic prejudice.

Second, that Walker hasn't licked either of tonight's principals and probably won't.

Third, De Vos

He hasn't licked De Vos because he has paid him absolutely no attention in a manner most marked. He hasn't licked Hudkins because, so far as I am concerned, he just hasn't licked him. I, it is admitted, however, that some very competent critics thought Walker won the Chicago fight, so it may be that I am just plain gorged-eyed and cantankerous.

What happened that night supports, in a measure, the current idea that Walker no longer is a middleweight. He clearly was outgordled by Hudkins and barely could lift his hands during the last five rounds. Kearns later explained that Walker was suffering from tonsilitis. However, the writer was with both of them the night before and, if Walker had tonsilitis, the writer had jugs on the bogies and

# Shrinkage In Brokers' Borrowings Fails To Block Rally

**MONEY RATE UP TO

Stock Being Bought by Rich and Powerful Traders, Survey Shows

**ADVANCE CONTINUES**

"Blue Chip" Issues Reach Higher Price Levels in First Half Hour

**BULLETIN**

NEW YORK, Dec. 28.—With their weather eye on the money market and the dwindling supplies of funds available for stock market uses, the big bulls bid up the prices of their favorite stocks all the way from two to 10 points in active trading today. With the ticker trailing 10 to 20 minutes, the market boomed along at a 5,000,000-share clip.

BY W. S. COUSINS  
I. N. S. Financial Editor

NEW YORK, Dec. 28.—Thursday's closing rally was carried into early trading in the stock market today and prices of the favorite industrial, motor car, copper and specialty stocks climbed 2 to 5 points. The reserve board's report showed another \$10,300,000 shrinkage in brokers' borrowings, which showed that rich and powerful traders, rather than the little bulls, were buying bundles of stock.

Instead of starting at a low rate and working up, call money was costed at 12 per cent as a start, with the prospect of a further increase before the end of the day.

Most of the market's "blue chips," raced back up at the opening, reaching higher price levels in the first half hour. Iraida sold up six points at 370; Seats Huelock gained 3½; Montgomery Ward four; Kennecott Copper, four; General Electric 4½; Atlantic Refining, 2½; National Biscuits, five; Johns-Manville added 2½ to yesterday's nine-point jump and sold at 126½, exactly 100 points above the price at which it graduated from the curb to the big board a few months ago. Wright Aero gained six.

Picking up the forward move that was interrupted a week ago, the major stocks kept step with the advance. Chrysler again provided the leadership. This stock sold above 126 for a two-point gain; Nash up two; Buick two; Briggs Manufacturing two and Vultee Overland fractionally higher in active trading.

**U. S. CAMPAIGN TO SET EXAMPLE FOR ENGLAND**

LONDON.—The recent election campaign of Governor Smith and President-elect Hoover may set an example for the election tactics of the Liberal party when this nation "goes to the country" next summer.

A. J. Sylvester, secretary to Lloyd George, recently returned to England from America after paying a visit to the United States for the sole purpose of studying election methods there. He is preparing a report of all he saw, from Governor Smith's much publicized brown derby to the gigantic radio hook-ups used to broadcast campaign speeches.

NEW YORK, Dec. 28.—Cotton prices opened unchanged to three points lower today. January sold at 20.30c, March 20.28c, May 20.25c, July 19.90c and October 19.61c.

**Chicago Outbid**

Wires from about the corn belt yesterday showed that the outside competitors were cut-bidding Chicago for corn from 1½¢ to New Orleans and industries reported high bids.

This indicated uneasiness displayed the previous day over reports that this market was being undersold. All of the market yesterday reported a good demand for good corn, which is making up the bulk of arrivals.

There was further short covering in export corn, and Broomhall said

that as Argentine offers decrease and price increase there is more apparent interest in American corn. Despite the attractive offers of feeding barley he continues, the demand is centered upon corn.

With the large remaining open interest in the December there is every possibility that the remaining three days of the month may see further

## Grain Market

## Today in Marion Markets

### Groceries, Produce, Meats, Grain, Livestock

With bad colds and flu raging in the city and many Marion families adhering to the age-old remedy of hot lemonade, the price of lemons has jumped from 40 cents per dozen to 60 cents and they are a mighty scarce article at that price. Marion fruit and produce merchants declare.

Michigan potatoes, which have been retailing at 21 cents a peck also took a hop today and were quoted at 23 cents, the same price as the home-grown variety. Grapes also advanced from 12 cents to 15 or two pounds for 25 cents.

New Year's turkeys were quoted at 45 cents per pound dressed, and the supply on the market today was limited in numbers. Small fresh hams also made their appearance at the price of 23 cents per pound.
